

Stallion ST303E

Centon Kenya Limited now brings to you the Stallion series of Modern, Stylish and Slim looks. These heaters come in a choice of two colours in Gold or Black. It comes complete with a right angle regulated stop valve including a new wall bracket set.

The heater design and quality shines beautifully to all discerning bathrooms and is in-cooperated with the latest Electronic Control System that would deliver the most comfortable showers.

Technologically Advanced Electronic Control System

The electronic control system provides easy selection of variable shower temperature by simply turning the temperature control knob.

Quality comes with the state of the art built in technology and is manufactured with the stringiest ISO 9001 and ISO 14001 standards.

As Centon Kenya we care for your needs and bring you our new ERA of technologically advanced Stallion ST303E series to provide you the most sensational showers.

Safety

Safety comes with the latest technology built-in **Residual Current Device (RCD)**, and is manufactured in accordance to the stringiest ISO 9001 and ISO 14001 standards. RCD sensitivity of 15mA would automatically cut-off power supply in the event of current leakage and prevent electrocution.

Other Safety Features

- Anti Leak Tank Design – provides additional safety to the users
- Pressure switch triggering system – only operates when there is sufficient water pressure
- Heating Element – only activates when there is water flow.
- Thermostat automatically cuts out at 55°C. This acts as anti scalding
- Splash proof panel.

It simply gives more life and fun in the bathroom!

Technical Specifications

- Heater Electrical Rating 5.5kW 220V – 240V AC, 50/60Hz
- Minimum Water Flow Rate 2litre/minute
- Maximum Water Pressure 3.87f/cm²(55 psi)
- Water Temperature Control Electronic control
- Water Connection 15mm diameter (1/2" BSP)
- Dimension 520mm x 238mm x 91mm(h)
- Weight 2.4 Kg

Multi-Spray Hand Set

Shower Hand Set selection allows users to select preferred shower spray pattern for optimum shower sensation.

Triple Function Right Angle Stop Valve

Smooth 90° water flow control valve with regulator and built-in mesh filter to prevent foreign particles from flowing into the heating element, causing unwanted damages / blockages.

Stepless Electronic Control

Allows users to make fine power adjustment to produce desired shower temperature.

Splash-Proof Casing

Protection against water jet spray from all possible directions.

Built-in RCD

Life-saving device which cuts off power supply in the event of current leakage, protecting users from getting electric shock.

Built-in Voltage Surge Protector

Protects internal electrical circuit from electrical surges and voltage spikes, including those caused by lightning.

Built-in Flow Sensor

Cuts off power supply in the event where water flow is less than the rated flow that might result in internal overheating.

Double Function Thermostat

Additional manual reset function in the event of abnormal temperature rise, protecting users from the risk of scalding.

UK Technology Heating Element

Advanced heating technology providing users with instant hot shower water flow, with a guaranteed 3-year warranty.

Unlimited Capacity Hot Water Supply

Tankless instantaneous water heater technology provides on-demand constant supply of hot water instantly without the need of waiting.
